

1990

**NOFIT  
STATE  
CIRCUS**

*presents*

**A WISH WASHES  
WHITER**

**HI-WAY  
HIRE AND SALES**

Nofit State Circus, currently undertaking their fifth U.K. tour, are Wales' only New Circus company and until this year have survived without financial support. Since 1985 they have been awarded the Welsh Community Business of the year, the Heinekin Street Entertainers of the Year with ' Risky In Pink ' and have visited every service station in the country.

**Alli Bye** was born in the U.S.A. and has been embarrassed about it ever since. Made up for it by touring with the Cuban State Circus. Used to be a physiotherapist although the rest of the company would never know. Her ambition is to overcome her fear of heights so she can be in the tightrope, routine as well.

**Dave Id** formally Mr. Id left mechanical engineering to pursue a career as a top yoyo artist. This has led him through many adventures from the infamous Grotty Grimsworld to the heroic Melvin the Gratel in Phantom of the circus. He now plays the catalytic Jack Jones in ' A Wish Washes Whiter '

**Peter Out** was born in Manchester, in 1965, with a broken arm. Studied psychology in Cardiff and ended up joining the circus. Used to spend his spare time hanging round on street corners until he discovered the trapeze and how to cook steam pudding.

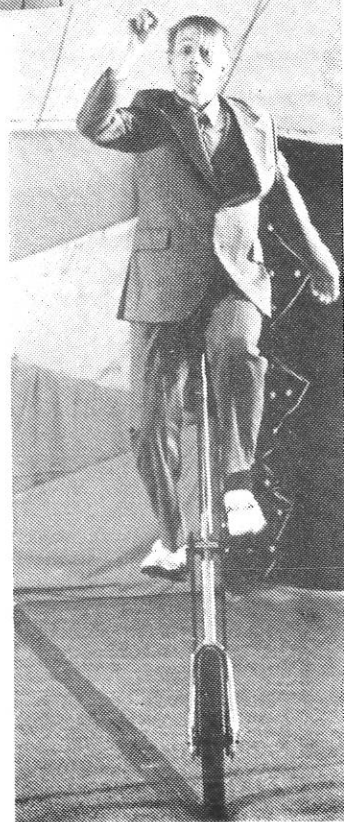

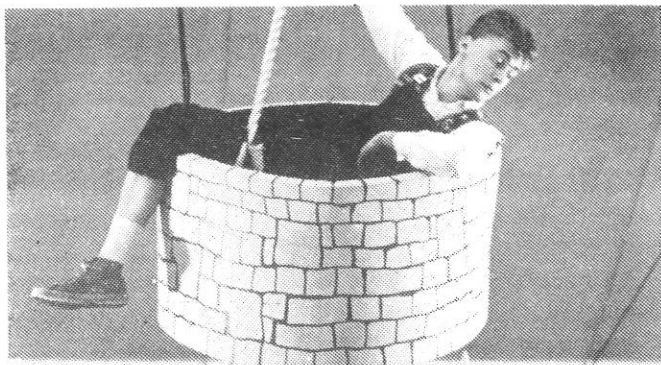

**Rich Pickings** was born in Newcastle of Burmese decent. He loves fine red wines and adores Chinese food but always has too much to do. His ambitions are to live in Portugal, where there's no poll tax, and to do the triple like Tony Curtis.

**Tom Rack** was found under a stone in 1965 and has successfully avoided the washing up ever since. He has been performing in one way or another all his life. Loves children and animals, and would like to be an airhostess if he grows up.

A Wish Washes Whiter is the story of intrigue and love combined with fantasy and reality. The search for new green products, the chance to wish for anything and the pursuit of justice - all unfurl amongst a myriad of circus feats.

*Angela D, Castro was born somewherein deepest Brazil and spent the first 25 years of her life performing and directing Brazilian T.V. and theatre. Then she left home to become a clown, worked all over the world and has ended up living in Brixton and working for Mummerandada.*

*Olly Crick has a keen sense of the ridiculous. Found himself in a forest with people who needed help, gave it and now watches them sweat. He teaches at Fooltime circus school, also devises and directs and is available for work in sunny climes.*
